EDUCATION

MCA | Computer Science
VTU University | Bengaluru, IN

09/2022 - 08/2024   *CGPA 7.5*

Major
- Computer Science

BCA | Computer Science
Banglore University | Bengaluru, IN

CGPA 6.8

Major
- Computer Science

PROJECTS

My Portfolio Next App (09/2024 - 10/2024)
- **Engineered** a portfolio app deployed on Vercel, **leveraging** Next.js 15 for dynamic content, Next UI for design, and Acertainty UI for an engaging user experience. This app highlights personal projects and enables easy access to a downloadable resume, contact info, and social links. You can view it here: https://my-portfolio-next-app-five.vercel.app/ .

Tourify React App (05/2024 - 07/2024)
- **Led** the development of a comprehensive tourism platform using the Google API, **incorporating** features such as hotel search, virtual tours, and flight bookings, enhancing user engagement through interactive travel stories. GitHub Link: https://github.com/YogiJi21/Tourify-React-App.git

Eco - Tracker React App (12/2023 - 02/2024)
- **Developed** a MERN-based Eco Tracker app that **calculates** carbon emissions from daily activities and recommends actionable steps to reduce the carbon footprint. GitHub Link: https://github.com/YogiJi21/Eco-Tracker-React-App.git

Quizeen Android Application (12/2023 - 01/2024)
- **Built** an Android-based quiz app using Android Studio, **featuring** 10 general knowledge questions with interactive animations and a scoreboard for a dynamic user experience.

Zammy News React App (12/2023 - 12/2023)
- **Developed** a news website using React and Google News API, **displaying** real-time news updates by category, improving user engagement with topical news content. GitHub Link: https://github.com/YogiJi21/Zammy-News-React-App.git

Multiplex Management System (08/2019 - 09/2019)
- **Engineered** a multiplex management system in .NET, **utilizing** MySQL for optimized data management with enhanced security and performance.

SKILLS

Next Js   React Js   TypeScript   Python

C/C++   Java   JavaScript   SQL   NodeJS
